

FROM CITIZEN TO DIPLOMAT: THE MODEL UN PLAYBOOK

ORIENTATION DOSSIER & STRATEGIC SURVIVAL GUIDE

Disclaimer

This playbook has been developed by **ProBiz Knowledge Centre** as an educational resource to support participants in their Model United Nations journey. The strategies, recommendations, and examples presented are based on academic research and practical experience and are intended solely for learning and skill development. They do not represent the official views, policies, or procedures of the United Nations or any Model United Nations conference. Conference rules, committee formats, and evaluation criteria may vary, and participants are encouraged to refer to the official conference documentation for specific guidelines. While every effort has been made to ensure the accuracy of the content, the publishers assume no responsibility for errors, omissions, or outcomes resulting from its use.

Command Center: The Facilitators

The Organizations

This dossier is provided as a collaborated initiative between **ProBiz Knowledge Center** and the **International Matrix Foundation (IMF)**, organizations committed to fostering global dialogue through immersive academic simulations and partnering with institutions to host the best Academic Simulations on campus.

Abhav R. Nair is a final year B.Tech undergraduate in Electrical and Computer in Thiruvananthapuram. A model UN coach, he is the Founder of the International Matrix Foundation and the Chief Operating Officer of ProBiz Knowledge Centre, where he leads initiatives in educational innovation, institutional partnerships, and experiential learning. With extensive experience in international diplomacy and academic leadership, Abhav has served as a Chairperson (Adjudicator) and Executive Board member at over 60 Model United Nations conferences hosted by premier institutions including IIT Bombay, IIT Kharagpur, IIT Roorkee, IIT Indore, NIT Rourkela, IIIT Guwahati, NIT Agartala, and KIIT to name a few. His expertise spans engineering, project management, public policy, data analytics, and global governance.

A recipient of multiple United Nations certifications and diplomas, he is passionate about bridging technology, diplomacy, and education to create meaningful impact through innovation, leadership, and international collaboration.

The Global Arena Dashboard

The United Nations is the most universal international organization in history, founded in 1945 by **51 nations** and expanded to coordinate **the survival and progress of the entire planet**.

193

Member States (Universal Reach)

75,000+

Peacekeepers deployed across 12 active operations. (The UN has no standing army of its own).

160 Million

People fed annually by the WFP across 120+ countries.

45%

Of the world's children vaccinated by UNICEF.

100+ Million

Forcibly displaced people assisted by UNHCR.

17

Sustainable Development Goals (SDGs) mapped for 2030.

Dossier Intel

The UN Headquarters in NYC is classified as international territory, complete with its own security force and post office.

The Architecture of Global Power

Zone 1: (60%) Active Deliberative Organs (The Primary Simulation Arenas)

General Assembly (GA)

The main deliberative body.

193 members.

1 Country = 1 Vote.

Discusses broad international issues.

Security Council (SC)

The crisis center maintaining international peace.

15 members total.

5 Permanent Members (P5) hold absolute **Veto** power.

Economic & Social Council (ECOSOC)

The coordinator for sustainable development and social progress.

54 members elected for 3-year terms.

Zone 2: (move 40%) Administrative & Judicial Organs

Secretariat

The 40,000+ staff worldwide implementing UN policies, led by the Secretary-General.

International Court of Justice (ICJ)

Settles legal disputes between states. 15 judges based in The Hague.

Trusteeship Council

Inactive since 1994 (Palau's independence).

Step Into the Simulation

Model UN is where diplomacy meets debate meets strategic collaboration. Every year, over 100,000 students worldwide step into the shoes of global leaders across 160+ conferences to draft policy, negotiate treaties, and rewrite history.

The Diplomat's ROI (Return on Investment):

Command the Room: Overcome stage fright and master high-stakes public speaking.

Strategic Empathy: Defend perspectives completely foreign to your own worldview.

Consensus Building: Learn the delicate art of negotiation, lobbying, and forging alliances under pressure.

The Network: Build a global network of ambitious peers.

The Committee Selection Matrix

Diagnose your ideal deployment based on your experience level and strategic style.

Committee Type	Scale	Power Dynamics	Pace & Profile	Ideal For
General Assembly (DISEC, SOCHUM)	Massive (50-200)	Egalitarian (1 Country = 1 Vote)	Structured, steady. Focus on broad consensus.	Beginners. Those who excel at building large coalitions.
Specialized Agencies (WHO, UNHCR)	Intermediate	Topic-specific expertise required	Technical, focused. Requires deep policy knowledge.	Intermediate. Issue-experts and policy wonks.
Security Council	Intimate (15)	Asymmetrical (P5 Veto Power dictates flow)	High-stakes, intense negotiations.	Advanced. Masters of leverage and backdoor diplomacy.
Crisis & Historical	Small	Fluid (Real-time updates change reality)	Rapid-fire decision making. Think on your feet.	Advanced. Quick thinkers who thrive in chaos.

The Mission Timeline

A conference is not a straight line; it is a cycle of debate, negotiation, and drafting that loops until a resolution is achieved.

Pre-Mission Intel & Research Parameters

Victory at MUN is decided weeks before the conference begins. Your objective is absolute mastery over your assigned nation's worldview.

T-Minus 4-6 Weeks: Intelligence Gathering

The Nation: Geography, economic GDP, demographics, and current political leadership.

The Foreign Policy: Who are your closest allies? Who are your historical rivals?

The Agenda: The history of the topic, past UN interventions, and the current crisis state.

Authorized Databanks (Sources)

Tier 1: UN.org, Official Treaties, World Bank Data.

Tier 2: Official government websites and foreign ministry press releases.

Tier 3: Verified news syndicates (Reuters, AP, BBC).

Anatomy of a Winning Position Paper

Your Position Paper (1-2 pages, Times New Roman 12pt) is your official mandate. It proves you understand your country's policy.

Zone 1: The Background

A brief, clinical overview of the global issue and its significance.

Zone 2: Past Action

A record of existing UN resolutions, international treaties, and failed attempts to solve the problem.

Zone 3: National Policy

The core of the paper. Your country's specific stance, actions already taken domestically, and vested interests.

Zone 4: Proposed Solutions

Concrete, actionable directives your country wants the committee to adopt into a final resolution. Be realistic to your nation's character.

Rules of Engagement: The Roll Call Equation

The Rules of Procedure (ROP) provide structure to the chaos. The entire system rests on the opening Roll Call, which establishes the Quorum (the math required to pass anything).

The Two Stances

Present

You are in the room. You maintain the right to Abstain during final substantive votes.

Present & Voting

You are fully committed. You forfeit the right to abstain; you must vote Yes or No on the final resolution.

The Quorum Math

50% + 1

Simple Majority

Used for Procedural motions and basic decisions.

2/3rds

Special Majority

Used for Substantive votes, like passing the final Draft Resolution.

The Spectrum of Debate

A master delegate knows exactly which form of debate to deploy at the right time.

Mode of Debate	Formality	Chair Oversight	Time Limits	Strategic Purpose
Formal Debate (GSL)	Highest	Absolute. You must be recognized to speak.	Strictly 90 seconds (can be altered to 120s).	Stating official policy on the record. Posturing to the whole room.
Moderated Caucus	Medium	Chair manages the flow, but discussion is rapid-fire.	Usually 60 seconds. Max 20 mins total per caucus.	Rapidly debating a highly specific sub-topic of the main agenda.
Unmoderated Caucus	Lowest	None. Delegates roam freely.	Max 20 mins total per caucus.	True diplomacy. Drafting resolutions, horse-trading, and building voting blocs.

The Parliamentary Decision Tree

Scenario A: You finish your GSL speech with time left on the clock. What do you do?

Yield to Points of Information

Invite questions from the floor to show dominance on the topic.

Yield to Another Delegate

Give your time to an ally to reinforce your voting bloc.

Yield to the Board

Give the time back to the Chair to move the debate forward.

Scenario B: You need to interrupt the flow. Which Point do you raise?

Point of Personal Privilege:

The room is too hot, or you can't hear the speaker.

Point of Order:

The Chair or a delegate made a procedural error.

Point of Enquiry:

You need clarification on the rules.

Point of Information:

You have a question for the current speaker (if they yielded to questions).

Right of Reply:

A delegate explicitly insulted your national integrity.

Tactical Maneuvers: Motions & Voting

Motions are your steering wheel. You use them to change the format of the debate.

Key Motions for the Arsenal:

-  Motion to Establish the General Speaker's List (GSL)
-  Motion for a Moderated/Unmoderated Caucus
-  Motion to Introduce the Draft Resolution
-  Motion to Table the Debate and Move to Voting

The Two Theaters of Voting:

1. Procedural Voting

Voting on how the committee is run (e.g., moving into a caucus).

Rules: Simple Majority rules. No one is allowed to abstain.

2. Substantive Voting

Voting on the actual ideas (e.g., passing a Draft Resolution, amending the ROP).

Rules: Special Majority required. Delegates who answered 'Present' may abstain.

The Delegate's Blueprint: Systems Synthesis

MUN is not three separate games (Research, Socializing, Rules).
It is one integrated system. Here is how you win:

Takeaway: Brilliant research fails without alliances. Strong alliances fail without knowing the procedural rules to get your resolution on the floor. You must master all three.
